

Ratification of the DAO Multi-Signature Gnosis Signers Updated Agreement

Author: benreed.eth

Date: 2023-05-02

Proposal: 0025

Type: Ratification

Thesis.

Authorized Member benreed.eth would like to update the agreement (“Agreement”) between Movement and the Movement Gnosis multi-signature wallet (“Multi-sig”) signers (“Signers”).

Motivation.

Authorized Member benreed.eth wants to present an updated Agreement between the DAO and the Multi-sig Signers for ratification from the community. This Agreement was updated in order to further elaborate on the guidelines the Signers must follow, along with the procedures that must be taken regarding custody of the Ethereum Addresses and Ledger hardware wallets (“Ledger(s)”) that compose the keys to the DAO Multi-sig.

The original agreement was published along with the other DAO governance materials in August 2022, however the individual Signers were not explicitly asked to acknowledge their agreement to those terms. In an abundance of caution, the Authorized Members seek to ensure that there is a clear Agreement between Movement and all Signers participating in the observance of governance and execution of transactions on behalf of the DAO, that outline their obligations and the procedures they must follow while acting as a Signer.

The link provided above is where the effective Multi-sig agreement will live, please notice the effective date and updated date to track.

Specification.

1. The Authorized Members have drafted a new Agreement between Movement and the Signers.
2. The Authorized Members now request that Community Members review the Agreement, voice any concerns they have with it, and vote on whether or not they want to ratify the Agreement.

Rationale.

The Authorized Members want to be sure that this Agreement includes a detailed layout of the rules and obligations that the Signers must abide by, and that the Agreement itself is clear, concise, and legally binding.

Risks.

1. The Agreement may miss important details.
2. Members may not like the new Agreement.
